

OUR EXPERIENCE IN SKOPJE:

European
Commission

EUROPEAN
SOLIDARITY
CORPS

2021-2027

THE POWER
OF TOGETHER.

THE FIRST DAY:

We met other volunteers from the other associations in Macedonia and we did some activities to know each other (Like questions and answers about our interests).

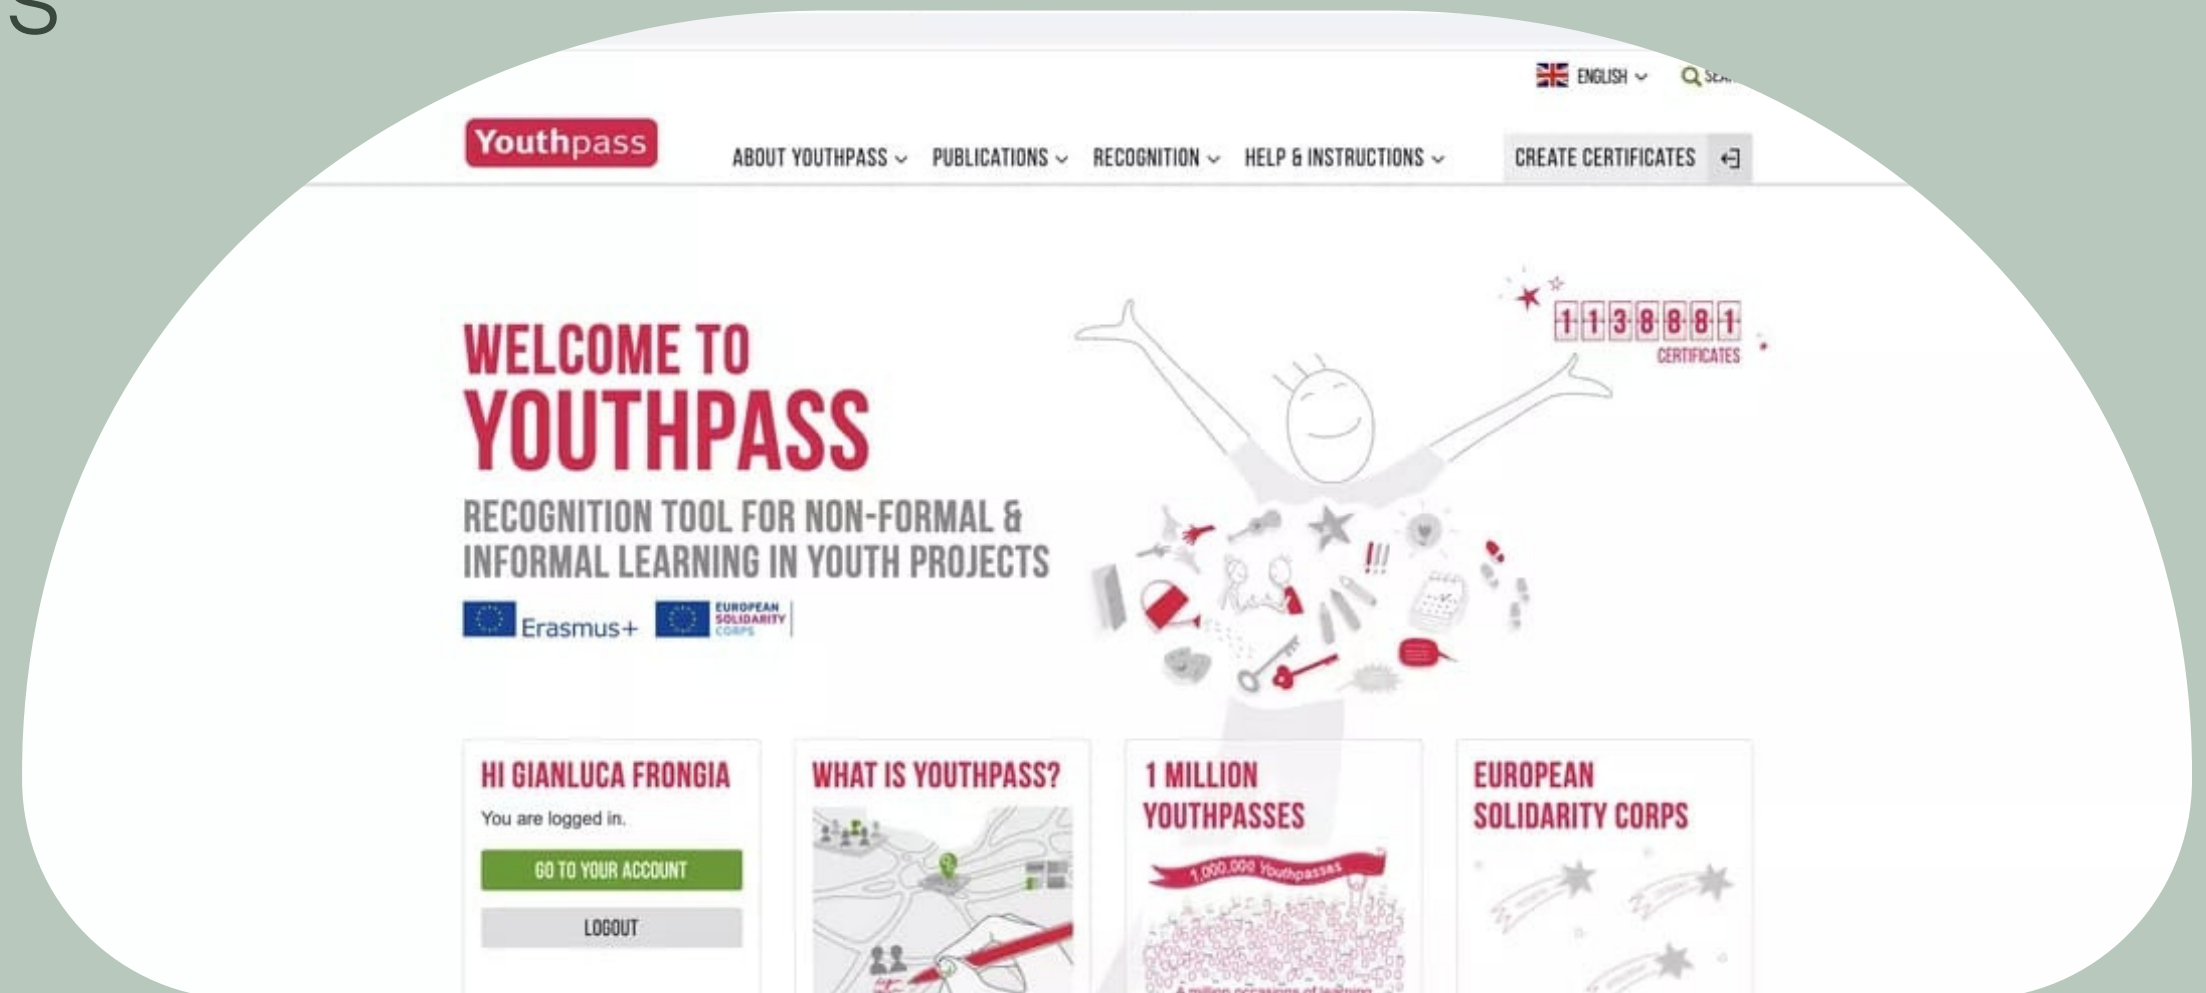

WHAT DO WE DO IN OUR ASSOCIATION?

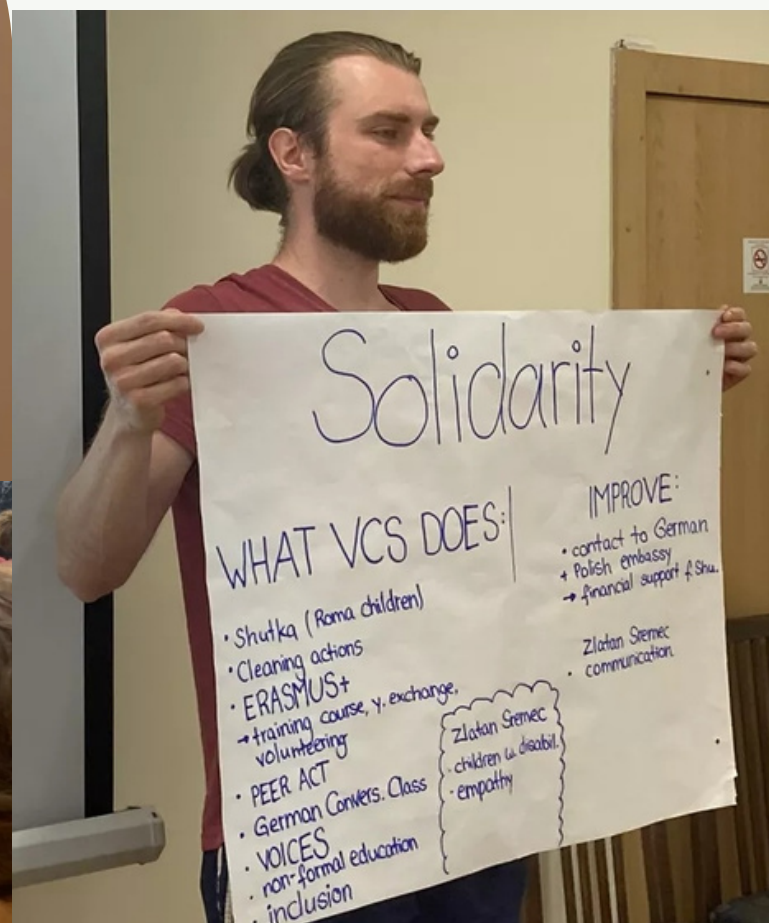

We presented to other volunteers the activities we do in our association like: prepare articles of different topics to publish on the website page of 'Youth Council Prilep', record on the radio and give Italian and Turkish lessons.

They give volunteers some technical information about rules must be follow by the association, rights of the volunteers and how an ESC should be organized. They talked also about Youthpass and the opportunities for volunteers after SVE.

WHAT'S THE MEANING OF SOLIDARITY?:

The last day we prepared a presentation to explain how the activities we do in our organization are translate into terms of solidarity:

1 support the community giving language classes and preparing informative articles

2 Create a sense of social integration preparing workshops for children or local volunteers.

PERSONAL CONSIDERATIONS:

I found this experience very useful because it allowed me to know much more about Sve and the opportunities it can give. Furthermore thanks to that, i met very good people who are other volunteers like me but from other associations who are in Macedonia.
